

# Nose to the wind

New Radome Exchange & Repair program for B777 and A320

With its arrowhead shape to bolster the aerodynamic of your aircraft, your aircraft's Radome is always exposed to damage; whether it is a bird strike or a sudden hailstorm, we're all familiar with a flight or ground operations crew member detecting a spot and grounding the aircraft, disappointing passengers and squeezing your profits.

Anchored in our long-established expertise in aircraft nose care, and in partnership with SPECTO Aerospace -leader in composite and sheet metal repairs for military and civil aircraft-, Fokker Services Group is proud to introduce its advanced Radome Exchange and Repair program for B777 and A320.

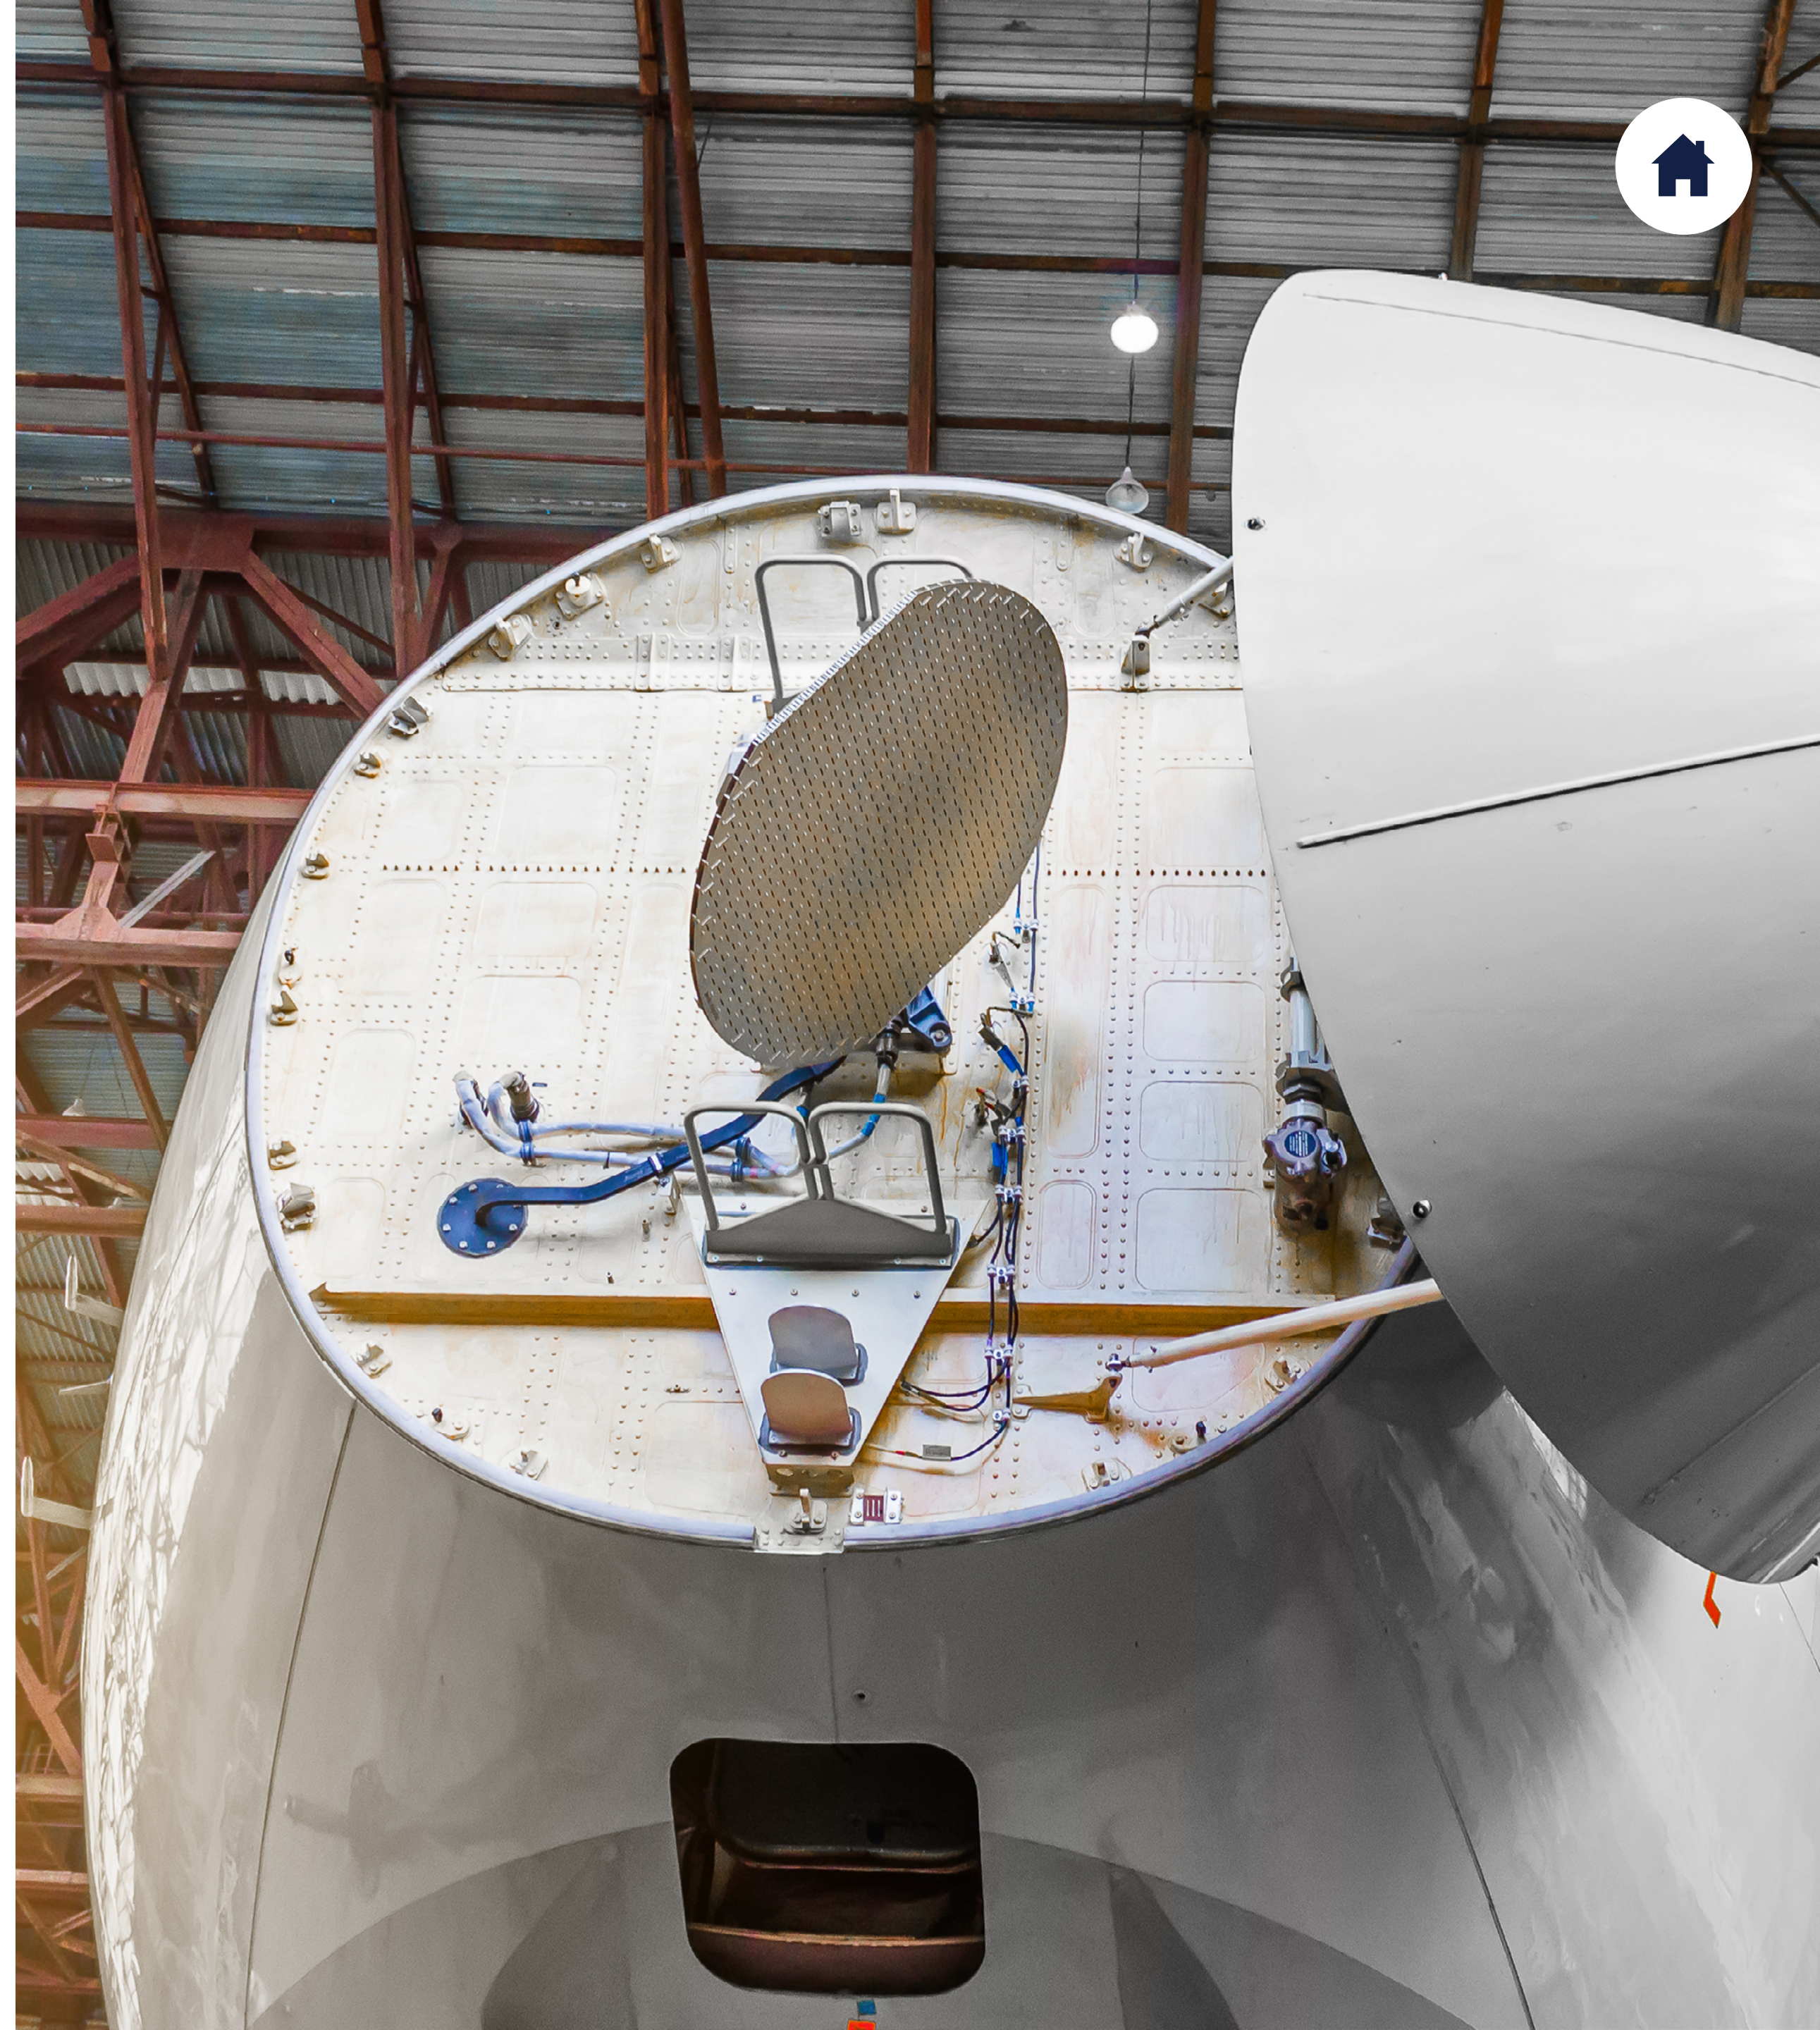

## Program highlights

- » Excellence in Repairs, Fast Turnaround.
- » Exchanges on stock and ready to go managed by Fokker Services Group, providing 24/7 support.
- » Competitive exchange fee.
- » Partnership with SPECTO, a Part-145 certified organization for Composite Repair Services.
- » Release certificate available: EASA / FAA / TCCA & CAA-UK Form 1.

## Program scope

- » Complete repair management coverage on A320 (Kevlar/Quartz/S2 glass fiber) and B777.
- » Exchange availability on A320 (S2 glass fiber) (PN D53132110000 & PN D53132210000) and B777 (PN 284T0052-39 and -41, -42, -43).

## About SPECTO

SPECTO is a private owned Aerospace company and your independent business partner with a broad in-house capability. SPECTO offers availability to customers by means of specialized composite- and sheet metal repair solutions for primary- and secondary fixed & rotary wing components, both from our two MRO locations and in the field, on your (hangar) premises.

Our customers include civil operators, fixed wing aircraft- helicopter- and component MROs, major OEMs and global parts management organizations.

## Interested?
