

Hydraulics

End-to-end MRO capabilities

At Fokker Services, hydraulics and actuation is deeply rooted in our heritage. We first began inspecting hydraulic parts in 1965. Today, we leverage our strong OEM partnerships to provide our customers with quality solutions and services at our shops in Schiphol, the Netherlands, and LaGrange, U.S. Our state-of-the-art technology, quality approvals, and OEM-trained technicians ensures we maintain our high-standard for servicing these critical parts. We have invested in state-of-the-art test systems for our customer's success and service over 250 units per year.

Our Capabilities

Our highly experienced team of experts test, repair and overhaul components including pumps, flight controls, actuators, valves and manifolds. By using our advanced custom-built equipment, we can simulate the actual aircraft operating environment to offer accurate results and ensure full reliability.

With a variety of end-to-end MRO capabilities, our expertise covers the complete scope of pneumatics for multiple aircraft types, such as:

- » Airbus A320 Family
- » Boeing 737 Classic & NG, 747, 757, 767, 777
- » De Havilland - Dash 8 Q400
- » Fokker 70, 100
- » Mitsubishi CRJ Series

Guaranteed Turn-Around-Times

With our Guaranteed Turn-Around-times and our flexibility with exchange units, whether forward exchanges or performance exchanges, we can meet your operational needs.

Direct Customer Benefit

We create valuable savings for you with our quality, technology and innovation. And with our flexibility in pricing, whether in T&M, NTE, fixed or flight hour pricing, we can meet your financial needs.
