

ACMP / EDP Hydraulic Pumps B757 / B767

Maintenance Simplified

Built from a legendary aviation background, Fokker Services knows what it takes to simplify the maintenance burden of our customers.

We combine world class operational excellence, innovative material and repair technologies, with customer centric flexibility to create true customer satisfaction. Obsolescence challenges are easily solved through the buying power of our vast vendor base and our exclusive alternative parts design capability. Get the best support with personal attention, let the creative team at Fokker put you above the rest.

Fokker Services is a global Center of Excellence for ACMP and EDP maintenance, servicing over 250 units per year. We have invested for our customer's success with state of the art test systems. Our hydraulic capability extends to actuators, PCU's, and many other accessories.

Innovative Material and Engineering

Fokker Services goes beyond CMM requirements to give our customers the best technology possible. Our use of PMA/EPA parts in conjunction with our approved repairs yield reduced cost, and improved reliability, all with a 21 days guaranteed TAT.
