

Maintenance Simplified

Built from a legendary aviation background, Fokker Services knows what it takes to simplify the maintenance burden of our customers.

We combine world class operational excellence, innovative material and repair technologies, with customer centric flexibility to create true customer satisfaction. Obsolescence challenges are easily solved through the buying power of our vast vendor base and our exclusive alternative parts design capability. Get the best support with personal attention, let the creative team at Fokker put you above the rest.

Fokker Services is a global Warranty and Repair Facility authorized by Gables Engineering for all Gables electronic products. Our relationship with Gables started in 1992, repairing thousands of Gables panels since then. Through our investment in state of the art equipment and our unique relationship with Gables, we can provide world class support on all Gables electronics products at excellent prices.

OEM Partnering

Gables Engineering has issued a mandatory Service Bulletin 85 (SIL 85) to address ATC transmission issues and improve reliability on:

- G7490 series panels
- G7492 series panels
- G7493 series panels

Fokker is offering this modification free of charge to our customers, with a short turn around time of 7 calendar days. Exchanges available.

Direct Customer Benefit

With our quality, technology and OEM relationships, we can save you time and money. Our flexibility with exchange units, T&M, fixed or Flight Hour pricing can meet your operational needs. Fokker Services can simplify your maintenance.

Industry excellence, one unit at a time

Maintenance Simplified

Certificates:
EASA Part 145
FAR 145
