

## **Business Application Lead**

As Business Application Lead, you will have the responsibility of overseeing both the build and run aspects of various application and data domains across the organization. You will be involved in developing new solutions to address business opportunities, collaborating with stakeholders throughout the entire process, from gathering business requirements and strategy to planning and completion. Your role as the Business Application Lead involves coordinating and managing the domains involved in building and operating IS&T application and data projects. You will also play a crucial role in proposing and implementing projects, ensuring the timely delivery of solutions within budget and with high-quality standards.

As the Business Application Lead, your focus will be on steering, facilitating, coordinating, and managing all application and data domains to achieve the objectives defined in the Applications Management strategy, with input from Infrastructure Management and Security.

Your primary responsibility as the Business Application Lead is to integrate all applications and data systems to deliver robust, cost-effective, scalable, and sustainable solutions that meet the business requirements. This includes integrating global solutions with regional ones, as well as aligning Fokker Services Group's internal systems with external solutions.

### **Qualifications (preferably):**

- Bachelor's degree in engineering, computer science, or a related field;
- 5+ years of experience in infrastructure development and maintenance;
- 3+ years of project management experience;
- Strong technical skills in infrastructure technologies, including networks, servers, storage, and virtualization;
- Experience managing projects in a complex and dynamic environment;
- Excellent communication and leadership skills;
- IPMA-C, PMP or Prince2 certification preferred;
- Knowledge of ITIL best practices;
- Experience in drafting and implementing budget management plans;
- Fluent in English and Dutch, both verbal and written;
- Advanced knowledge of Agile methodology is a plus.

In addition to your technical expertise, you possess a flexible work attitude, exceptional attention to detail, and a commitment to delivering high-quality results. You are a team player and an inspiration to your colleagues, with strong leadership skills to drive projects forward.

### **What's in it for you**

Our organization has a passion for technology, and our employees are rightfully proud of what they develop and build. We offer a competitive salary package, including profit-related bonuses and 40 days of annual leave. But more importantly, we provide an opportunity for you to develop

your career, gain unrivaled breadth of experience, and achieve your true potential in a growing organization.

### **About Fokker Services Group**

At Fokker Services Group, our greatest purpose is to exceed reliability expectations, keeping customer aircraft where they belong - in the sky!

An aftermarket integrator with design, production, maintenance, and airworthiness expertise and experience, on which commercial and defense operators around the world rely for the continued competitive operation of their fleet. Unique independent competence for comprehensive single source solutions with a global presence, with facilities in Europe, Asia, and the Americas. The Fokker Services Group has a profitable revenue of Euro 250M and employs around 1000 people,

### **Our Values**

As a High-Performance Organization, our core values shine through in everything we do:

#### **Customer Focus**

We meet and exceed our customers' expectations by offering unique and personalized solutions. Creating clear expectations and building a sustainable relationship based on quality, safety and trust is what we value most.

#### **Innovative Thinking**

Our success is based upon an innovative mindset. We identify and create new opportunities, products, and customer solutions by being brave, daring to lead and making decisions. With our entrepreneurial and growth mindset, we explore and learn ways of doing things differently every single day.

#### **Global Excellence**

We strive for quality, reliability, and excellence. Together we create a high-performance culture in which digital transformation, continuous learning and improvement is key. Sharing knowledge and working cross functionally helps us to inspire and achieve our shared goal; to exceed expectations and keep aircrafts where they belong; in the sky!

#### **We Care**

Our people are at the heart of our organization. Only when we work together can we create an inclusive and respectful work environment in which we motivate, support, and inspire each other. We make a difference by being open, honest, respectful, and empathetic towards each other. Safety, quality, and trust are paramount.
