

## Internship CASA-contract database development

### The organization

Fokker Services is an independent aviation 'service provider'. We offer tailor-made solutions to regional, commercial and military aircraft. This is how we supply aircraft parts, we offer availability programs for components, we do maintenance and modification programs. We strive to offer our customers only the best from engineering to customer service. At Fokker Services we have a clear focus, i.e. to keep aircraft there where they belong: in the air. Fokker Services employs more than 400 people in the Netherlands, the USA and Singapore.

### The internship assignment – Customer (CASA)-contract database development

The database will be used for administration of contracts for those customers operation Fokker aircraft.

The assignment: Create a database, for example in Microsoft Access, that contains the data of a CASA-contract per customer.

Enable to generate revision heading by manual / DVD type, where applicable, with a live check of contract status in Pentagon and list sales orders that can preferably be uploaded via spec 2000 or equivalent in Pentagon, including the revision date of the item.

This can also be an alternative to the search type in FS reports

### Location

Location of the internship is Fokker Services, location Hoeksteen 40, Hoofddorp.

### Profile

The expected level of the trainee is preferably HBO with a technical course (e.g. Aviation logistics, logistics or IT). Be able to connect with several people to understand the current process.

Start of the internship: September 2021 with a duration of 3-4 months (depending on the internship duration)
