

Internship E-Commerce

The organization

Fokker Services is an independent aviation 'service provider'. We offer tailor-made solutions to regional, commercial and military aircraft. This is how we supply aircraft parts, we offer availability programs for components, we do maintenance and modification programs. We strive to offer our customers only the best from engineering to customer service. At Fokker Services we have a clear focus, i.e. to keep aircraft there where they belong: in the air. Fokker Services employs more than 400 people in the Netherlands, the USA and Singapore.

The internship assignment – Web Sales

As a Product Management Intern you are the center point between different departments, making this a very interesting and challenging internship.

You will work on a dedicated research to find the best solution to offer some of our products and/or services via our website. At present our website shows a large part of our portfolio and a reference to our Sales department, but our aim is to include the ability to issue (certain) proposals directly (to customers).

The intention is to free capacity, reduce lead-times and save on costs regarding the more standard request for engineering proposals. This includes research database, review website, clustering, classifying (Spec2000) making proposal for the website, communication to customers

Location

Location of the internship is Fokker Services, location Hoeksteen 40, Hoofddorp.

Profile

The expected level of the trainee is preferably HBO with a technical course (e.g. Aviation Engineering / business school). A motivated student who is looking for an internship. You are a team player who can easily express him/herself in communication with other departments. A commercial background is not specifically required but would be good to have some commercial feeling.

Start of the internship: February 2022 with a duration of 3-4 months (depending on the internship duration).

More information and applications: Peter Hof – Manager Engineering (peter.hof@fokkerservices.com)
