

## Military Planner NH90

Are you ready to take your career to new heights? Fokker Techniek, a leading Global Independent Aerospace Service Provider, is seeking a skilled and driven Military Planner to join our dynamic team. As a key player in our mission to exceed reliability expectations and keep aircraft/helicopters soaring, you will play a crucial role in ensuring that projects run smoothly and efficiently.

### **What will you do:**

The primary challenge in this role is to support logistics and work preparation. You will ensure that orders and materials are in the right place at the right time, enabling your colleagues to work effectively and efficiently with the designated resources, materials, and instructions. Additionally, you will be responsible for developing, monitoring, and adjusting the project plan and schedule to maintain a clear overview of the project's status.

You will also maintain daily contact with colleagues in Production to track project status and maintenance activities. This role involves communication with the Purchasing and Logistics departments to inform them about procurement orders and initiate outsourcing for specialized processing of components. You will liaise with the Project Manager daily to discuss progress, and you'll be in contact with the customer to address technical and substantive inquiries. Proficiency in English expression is crucial.

As a work preparer, you will provide information for purchase orders to your colleagues in the Purchasing department to ensure timely availability of project requirements. You will also monitor project progress and initiate meetings in case of any emergencies that may hinder progress. You will be responsible for creating and updating the project schedule, translating project plans into standardized maintenance tasks, and tracking their status.

### **Requirements:**

- MBO (Intermediate Vocational Education) level of education or equivalent.
- Knowledge of planning and quality systems.
- Solid understanding of project management and experience with planning and logistics processes.

### **What is also important:**

- A strong focus on cost management.
- A commitment to continuous improvement.
- Aim for standardization and flexibility.
- Achievement of self-challenging objectives.
- Solid knowledge of information systems.
- Fluency in Dutch and English.
- Note that a Military screening will be conducted due to the nature of the Military work.

**What's in it for you:**

Fokker Techniek is ambitious towards the future, just like you. Naturally, we offer a competitive package of benefits, including an attractive salary, comprehensive pension plan, 27 vacation days, and 13 ATV (Additional Time Off) days!

**How to apply:**

If you are interested in this position and would like to apply, please contact our recruiter Didier Soesman at the email address [didier.soesman@fokkerservices.com](mailto:didier.soesman@fokkerservices.com) or call the phone number: +31 (6) 51878728.

**About Fokker Services Group**

At Fokker Services Group, our greatest purpose is to exceed reliability expectations, keeping customer aircraft where they belong - in the sky! An aftermarket integrator with design, production, maintenance, and airworthiness expertise and experience, on which commercial and defense operators around the world rely for the continued competitive operation of their fleet. Unique independent competence for comprehensive single source solutions with a global presence, with facilities in Europe, Asia and the Americas. The Fokker Services Group has a profitable revenue of Euro 250M and employs around 1000 people.

**Our Values**

As a High Performance Organization, our core values shine through in everything we do:

Customer Focus

We meet and exceed our customers' expectations by offering unique and personalized solutions. Creating clear expectations and building a sustainable relationship based on quality, safety and trust is what we value most.

Innovative Thinking

Our success is based upon an innovative mindset. We identify and create new opportunities, products and customer solutions by being brave, daring to lead and making decisions. With our entrepreneurial and growth mindset, we explore and learn ways of doing things differently every single day.

Global Excellence

We strive for quality, reliability and excellence. Together we create a high-performance culture in which digital transformation, continuous learning and improvement is key. Sharing knowledge, and working cross functionally helps us to inspire and achieve our shared goal; to exceed expectations and keep aircrafts where they belong; in the sky!

We Care

Our people are at the heart of our organization. Only when we work together can we create an inclusive and respectful work environment in which we motivate, support and inspire each other. We make a difference by being open, honest, respectful and empathetic towards each other. Safety, quality and trust are paramount.
