

## **Design Engineer - Structure and Interior**

Due to expansion of our Engineering department, we are specifically looking for an experienced Structures and Interiors Design Engineer. You are part of a large team of engineers and report to the Team leader Structures, Ops and Maintenance. In this role you are responsible for Design, Development, Integration/Introduction and monitoring of the Structural aspects of our designs. Your direct stakeholders are Product Management, Project Leaders, the DOE organization and the hierarchical organization. Indirect stakeholders are Vendors and Customers.

### **Key responsibilities**

- Development of modifications to the aircraft design in accordance with customer and airworthiness requirements;
- monitoring of new technologies, selection of potential applications and translation into concept designs;
- definition of system and project requirements and support to product management;
- responsible for structure integration;
- creation of specification reports;
- support of system and aircraft tests;
- preparation / Checking / Approval of Certification reports;
- define, analyze technical and operational in-service problems. State the possible consequences for the individual operator on the whole fleet.

### **Experience and qualifications**

To succeed in this role you should bring the following skills and experience:

- You have a Bachelor or Master degree in Aeronautical engineering or equivalent;
- you have at least 10 years of relevant working experience in design of modifications;
- you have knowledge of EASA/FAA regulations and aeronautical standards;
- you have experience in working with Autodesk AutoCAD and CATIA;
- knowledge of the Structural Repair Manual is a plus.
- good communication skills, verbal and in writing, in English, Dutch is a plus;
- enthusiastic team player.

### **What We Offer**

The CLA (CAO) Metalektro applies. This consists out of the following:

- A competitive salary matching your experience and knowledge;
- when working fulltime (40 hours), you have 27 holiday days and 13 ADV leave days per year;
- room for professional and personal growth and a lot of autonomy;
- career opportunities.

### **About Fokker Services Group**

At Fokker Services Group, our greatest purpose is to exceed reliability expectations, keeping customer aircraft where they belong - in the sky!

An aftermarket integrator with design, production, maintenance, and airworthiness expertise and experience, on which commercial and defense operators around the world rely for the continued competitive operation of their fleet. Unique independent competence for comprehensive single source solutions with a global presence, with facilities in Europe, Asia and the Americas.

### **Our Values**

As a High Performance Organization, our core values shine through in everything we do :

- **Customer Focus** : We do all we can to meet the needs of our customers by offering unique and customized solutions. We understand the importance of delivering a truly collaborative experience, and value building sustainable relationships based on quality, safety and trust.
- **Innovative Thinking** : By driving leading proprietary positions within chosen markets, we engage and excel in innovative thinking. We dare to lead and make decisions.
- **Global Excellence** : In the pursuit of excellence, we are continuously improving by working cross-functionally and inspiring each other to achieve our shared goals. Further, we work with the highest safety standards and provide our employees with opportunities for personal development and learning.
- **We Care** : We embrace 'doing the right thing' by embodying diversity, equity and inclusion in the workplace. This means that we are open, honest and take the time to listen to each other.

### **To apply**
