

## Project Manager Digitization & Automation - Hoofddorp

### The role

Your role is to effectively lead digitization and automation projects within the Fokker Services Group. The Group has identified a strong Digital Transformation agenda as enabler for the business performance. Together with business owners and the ICT, advanced analytics, information management and digital services departments you will develop, implement, and drive process improvements. These projects will often be local pilots but fully implemented on global scale. It is important to capture feedback from different process owners, actively translate the feedback in enhanced process requirement, construct business cases, gather and drive project teams to implement change. Last, you play a pivotal role in scouting for new technologies that could add value to the company's business.

### The challenge

Projects are focused on the different digital technologies used (or will be used) to simplify, standardize and automate business capabilities. Examples are eCom, ERP, RFID, Bots, Blockchain, 3D technology etc. You report directly to the Leadership Team and directly support the Digital Services, ICT, Advanced Analytics, and Information Management teams and agenda. You enable the business to achieve leading service levels, recognized by our customers, with reliable cost-effective processes for any service provided at any location. Especially to capture client opportunities, across solutions and deliver the same customer experience and drive the Hangar, Workshop and Logistics of the future initiatives.

### Your key responsibilities

- Develop and execute the roadmap for technology enhancements;
- Develop 'customer' journeys for digital services to digitize and automate processes;
- Leading a project from business case to implementation; ensuring a proper handover to process owners (this includes gathering your own project team);
- Engage with Continuous Improvement Teams to support their goals with technology introductions;
- Keep closely in touch with critical stakeholders across different levels of the organization;
- Track and manage project performance towards management/steering group;
- Motivating/coach process owners to improve their processes with technology driven applications;
- Keep closely in touch with technology developments in the market.

### What do we ask from you?

- A Bachelor degree in Aerospace, Industrial Engineering or a relevant technical discipline. A Master degree is highly preferred;
- You have 3-5 years of relevant experience as a project manager; preferably within technology projects (IPMA/PRINCE2/PMP certification preferred);
- You like being responsible for complex projects in a dynamic international environment;
- You have affinity with (new) technologies and their application in a business / production environment;
- You are continuously looking for ways to improve;
- You are able to work in cross functional, and cross regional teams;
- Personal skills: analytical, data-driven, communicator;
- Willingness to travel.

### What do we offer you?

- The CLA (CAO) Metalelektro applies;
- A competitive salary matching your knowledge and experience;
- Flexible hours and an option to partially work from home (main location Hoofddorp/Schiphol)
- 29 days and 13 ADV days of paid leave per year (based on 40 hours a week);
- A challenging international work environment;
- An insider's view in the world of aviation and its innovation;
- Room for professional and personal growth and a lot autonomy.

### How to apply

We are recruiting internally and externally. Are you interested? Please send your cover letter and resume to Eva Bijl, Business Partner People & Culture at [eva.bijl@fokkerservices.com](mailto:eva.bijl@fokkerservices.com).

We do not appreciate commercial responses to the vacancy. Only direct applications will be taken into consideration. Recruiters or agencies will not receive a response.

### About Fokker Services Group

Aftermarket integrator with design, production, maintenance and airworthiness expertise and experience, where commercial and defense operators around the world rely on, for their continued competitive operation of their fleet. Unique independent competence for comprehensive single source solutions with a global presence, with facilities in Europe, Asia and the Americas.

### Working With Us

What is the height of your ambition? Ours starts at roughly 30,000 feet and climbs from there. Few people know what it feels like to set their work in the sky. Others may have a hard time relating but your colleagues understand that when your work takes flight, so do you. Which is why our team leaders are so driven to support the development of your maximum potential. Together, your work will mix renewal with innovation, reinvention and repair to create tailored solutions that soar. Your entrepreneurial spirit will be given the space to manoeuvre, working with a team that is as open, transparent and engaged as you are. With Fokker Services Group, every action you take has a meaningful impact on a customer's success. It's this total combination, and the strength of the relationships formed through a shared dedication, that keeps hardworking talent here for 20, 30 plus years. Time enough to reach the height of your ambition, and discover what lies beyond.

### Additional Information

As a global company, innovation is what differentiates us from our competitors and is central to our success.

Our goal is to embrace the human attributes that make each of us unique, to value attributes and their uniqueness, and to create an environment where everyone feels welcome to contribute.

A balance of cultures, ethnicities and genders help bring new ideas and creativity to our company. We need people of different backgrounds, with different skills and perspectives to spark originality, imagination and creativeness in our teams around the world.

We treat all our employees fairly and are committed to ensuring that there is no discrimination or harassment against any employee or prospective employee on the grounds of gender, sexual orientation, disability, religion, color, race or national or ethnic origin.
