

Modifications & Engineering Services Reports Dashboard

The organization

Fokker Services is an independent aviation 'service provider'. We offer tailor-made solutions to regional, commercial, and military aircraft. This is how we supply aircraft parts, we offer availability programs for components, we do maintenance and modification programs. We strive to offer our customers only the best from engineering to customer service. At Fokker Services we have a clear focus, i.e. to keep aircraft there where they belong: in the air. Fokker Services employs more than 400 people in the Netherlands, the USA and Singapore.

The internship assignment – Modifications & Engineering Services Reports Dashboard

The Modifications and Engineering Services departments makes use of various Reports. These reports are now available via a separate portal. Some reports are used frequently, and others are used limited or not.

As intern you will be assigned to investigate a better use of our reports. You will investigate what reports are required and what reports can be terminated. You will also discuss with the stakeholders whether these reports need to be revised.

We also ask you to investigate alternative ways of presenting these reports with the goal to make this data more accessible for the Engineering teams and to finetune the data with respect to our products.

Location

Location of the internship is Fokker Services, location Hoeksteen 40, Hoofddorp.

Profile

The expected level of the trainee is preferably HBO with a technical or Business course (e.g. Aviation Engineering / business school). A motivated student who is looking for an internship. You are a team player who can easily express him/herself in communication with other departments.

Start of the internship: September 2022 with a duration of 3-4 months (depending on the internship duration)
