

Head of Supply Chain & Logistics

At Fokker Services Group we are looking for a professional manager to lead our Supply Chain and Logistics departments.

The Role

As Head of Supply Chain & Logistics you will be developing the strategic departmental agenda for the long term. Formulation of departmental objectives and plans that align with the organizational strategy and meet the organizational needs and applicable quality standards. Sharing and propagating of one's own substantive vision. Advising the Managing Director and issuing improvement proposals that are in line with the business interests, for the development of the department.

Key Responsibilities

- Developing the long-term strategic departmental agenda;
- Focus on a timely realization of the formulated departmental objectives;
- Contribute to project proposals from the sales department by providing the necessary (technical) information;
- Managing: Guiding, adjusting, coaching and motivating the employees, so that they are able to achieve targets, output and budget to be achieved;
- Continuously analyzing existing work processes and identifying bottlenecks and possible improvements in work processes and working methods within the department;
- Motivating and leading multi-disciplinary teams;
- Managing and monitoring and improving planning processes;
- Responsibility for the site inventory strategy and performance;
- Accountability for logistics activities (freight, warehousing, internal movements, inbound/outbound logistics etc) and the associated costs;
- Working closely with operations ensuring costs are managed effectively to budget;
- Working closely with all internal and external stakeholders in order to ensure all projects are delivered on target on time and to resolve any operational issues that occur.

Authorizations & responsibilities

In this role you will be determining the department agenda and the prioritization within the department, taking into account the organizational strategy, organizational needs and quality standards. You will also ensure the progress of the departmental work by sending to the known operational KPIs, resolving recurring issues and make sure the operation runs optimally. The Supply Chain and Logistical teams you will lead consist out of approximately 60 colleagues.

Knowledge & experience

- Technical skills: excellent quantitative and analytical problem solving skills, confidence with Logistics and supply Chain management, has the ability to comprehend and clearly communicate complex concepts in a fast-paced, dynamic environment and provide strong documentation;
- Team player who can work across lines of business and with high degree of patience for working through multiple iterations of work, and dealing with the demands of senior management and the unpredictable and constantly varying subject matter of projects;
- Bachelor in SCM or related field and several years of related experience;
- Proficiency in Microsoft Office and Excel;
- Work under pressure, keep oversight while working under tight and changing deadlines
- Fluent in written and verbal English and Dutch;
- Self-starter, initiative.

What We Offer

- A competitive salary matching your knowledge and experience;
- Flexible hours and an option to partially work from home at discretion of line-manager when work permits this;
- When working fulltime (40 hours), you have 27 days of paid leave and 13 ADV paid leave days per year;
- A challenging international work environment;
- Company laptop and phone;
- An insider's view in the world of aviation and its innovation;
- Room for professional and personal growth.

About Fokker Services Group

At Fokker Services Group, our greatest purpose is to exceed reliability expectations, keeping customer aircraft where they belong - in the sky!

Our Values

As a High Performance Organization, our core values shine through in everything we do:

Customer Focus

We meet and exceed our customers' expectations by offering unique and personalized solutions. Creating clear expectations and building a sustainable relationship based on quality, safety and trust is what we value most.

Innovative Thinking

Our success is based upon an innovative mindset. We identify and create new opportunities, products and customer solutions by being brave, daring to lead and making decisions. With our entrepreneurial and growth mindset, we explore and learn ways of doing things differently every single day.

Global Excellence

We strive for quality, reliability and excellence. Together we create a high-performance culture in which digital transformation, continuous learning and improvement is key. Sharing knowledge, and working cross functionally helps us to inspire and achieve our shared goal; to exceed expectations and keep aircrafts where they belong; in the sky!

We Care

Our people are at the heart of our organization. Only when we work together can we create an inclusive and respectful work environment in which we motivate, support and inspire each other. We make a difference by being open, honest, respectful and empathetic towards each other. Safety, quality and trust are paramount.

How To Apply
