

## NDT Inspector PT/MT Level 2

Are you an experienced NDT Inspector with a passion for ensuring the integrity and safety of Aerospace related products? We are currently seeking a highly skilled individual to join our team at Schiphol (Oude Meer) as an NDT Inspector Level 2. In this role, you will play a vital part in enhancing our quality assurance processes and contributing to the overall excellence of our products.

### Key Responsibilities:

In this role, key responsibilities include performing non-destructive tests on aircraft-related parts, utilizing Magnetic Particle and Dye Penetrant Testing techniques. You will be tasked with interpreting and assessing test results to promptly identify defects, anomalies, or irregularities in materials and components. Ensuring strict adherence to aerospace standards, codes, and safety regulations is paramount.

Collaboration with the engineering department and/or the responsible Level 3 personnel is essential to address and resolve quality and safety-related issues. Regular on-site inspections and tests are conducted to uphold the highest quality standards throughout the aircraft components' life cycle.

Maintenance of accurate records is a crucial aspect of the role, encompassing testing procedures, test results, and the calibration of equipment and materials. Additionally, active participation in the development and implementation of Non-Destructive Testing (NDT) procedures and protocols is required, demonstrating a commitment to continuous improvement and excellence in aerospace quality assurance.

### Qualifications:

- Certification as an NDT Level 2 Aerospace Inspector for both methods, following the ASTM standards;
- Proven experience in Non Destructive Testing in an Aerospace environment;
- You have completed a MBO-3 or MBO-4 education;
- Effective communication skills, both written and verbal;
- Excellent view to detail and accuracy;
- Strong analytical and problem solving skills;
- Knowledge of the English language, both spoken and written;
- Willingness to grow, through study and experience, to a level 3 certification in both methods;
- In depth knowledge of NDT methods and techniques is a pré;
- Ability to work independently and collaboratively within a team.

If you are a dedicated NDT professional seeking a challenging opportunity to contribute to the quality and safety of our products, we invite you to apply. Join us in maintaining the highest standards of excellence in nondestructive testing.

**What we offer:**

Working at Fokker Services Group gives you the opportunity to work in a dynamic and entrepreneurial environment, with innovative thinking and cooperation with a no-nonsense culture as the core. You will be guided by professional and resolute colleagues, which will give you the knowledge and experience to further boost your career.

**We also offer you:**

- A competitive salary matching your knowledge and experience
- Flexible hours
- When working fulltime (40 hours), you have 27-29 holiday days and 13 ADV leave days per year
- A challenging international working environment
- An insider's look into the innovative world of aviation
- A lot of room for professional and personal growth
- Fun colleagues (trust us, we are not biased)

**About Fokker Services Group**

At Fokker Services Group, our greatest purpose is to exceed reliability expectations, keeping customer aircraft where they belong - in the sky!

An aftermarket integrator with design, production, maintenance, and airworthiness expertise and experience, on which commercial and defense operators around the world rely for the continued competitive operation of their fleet.

Unique independent competence for comprehensive single source solutions with a global presence, with facilities in Europe, Asia and the Americas.

The Fokker Services Group has a profitable revenue of Euro 250M and employs around 1000 people.

**Our Values**

As a High-Performance Organization, our core values shine through in everything we do:

**Customer Focus**

We meet and exceed our customers' expectations by offering unique and personalized solutions. Creating clear expectations and building a sustainable relationship based on quality, safety and trust is what we value most.

**Innovative Thinking**

Our success is based upon an innovative mindset. We identify and create new opportunities, products and customer solutions by being brave, daring to lead and making decisions. With our entrepreneurial and growth mindset, we explore and learn ways of doing things differently every single day.

**Global Excellence**

We strive for quality, reliability, and excellence. Together we create a high-performance culture in which digital transformation, continuous learning and improvement is key. Sharing knowledge

and working cross functionally helps us to inspire and achieve our shared goal; to exceed expectations and keep aircrafts where they belong; in the sky!

**We Care**

Our people are at the heart of our organization. Only when we work together can we create an inclusive and respectful work environment in which we motivate, support, and inspire each other. We make a difference by being open, honest, respectful, and empathetic towards each other. Safety, quality, and trust are paramount.

**To apply**

For questions about the function, please contact Milko Voskuil (Teamlead Proces Engineering / NDT) [milko.voskuil@fokkerservices.com](mailto:milko.voskuil@fokkerservices.com). For questions about the application procedure, please contact Marten van Gent (Recruiter) [marten.vangent@fokkerservices.com](mailto:marten.vangent@fokkerservices.com)

We are looking forward to your application!
