

Financial Accountant

The Role

The Controller plays a central role within the accounting team of Fokker Services and is responsible for the Financial Statement Closing Process. In this role, the Controller works closely with the Accounting Assistant to handle financial transactions in the ERP system. This includes tasks such as determining and creating journal entries, managing balance specifications, asset management, and ensuring the accurate processing of general expenses. Utilizing various reporting and support systems, the Controller is also responsible for meeting internal and external reporting requirements in a timely and accurate manner. This includes contributing to the preparation and reporting of budgets and forecasts as part of the Planning and Control cycle.

The team

The Controller will collaborate closely with colleagues of the Business Control, Transaction Processing, Group Reporting, and operational departments. Additionally, the Controller will provide support during audits and help ensure compliance with internal control measures. As a result, the Controller will also interact with external parties and colleagues from other subsidiary companies.

Key Responsibilities

- Assisting the finance business partner and business controller in analyzing the monthly figures of various business lines;
- Compiling and explaining additional reports on fixed assets, headcount, and operational costs;
- Preparing and processing journal entries and updating various balance specifications;
- Compiling monthly reports for Fokker Services Group;
- Identifying process improvements within the finance department;
- Supporting internal and external audits;
- Compiling and submitting data to government agencies (CBS, Tax Authorities).

Experience & Qualifications

To succeed in this role, you should bring the following:

- Bachelor's degree in Finance, Economics, Accounting, or a related field. Several years of relevant experience (3-5) is a plus.
- Technical Skills: Excellent quantitative and analytical problem-solving skills, familiarity with financial and accounting concepts, understanding of financial reports, ability to comprehend complex concepts in a fast-paced environment and communicate them clearly, and good documentation of work.
- Team Player: Able to collaborate across different business units and work with a high level of patience through multiple work iterations, dealing with the demands of senior management and unpredictable and constantly changing topics.
- Proficient in Microsoft Office.
- Ability to work under pressure, maintain an overview while operating under tight and changing deadlines.
- Fluent in written and spoken English and Dutch.
- Self-starter, proactive, ambitious.
