

Technician Avionics & Instruments

For our component repair shop at Schiphol we are looking for a technician with an electro-mechanical background. These include: Cockpit panels, navigation instruments, lamps, power control and multiplexers. Knowledge and experience of electronics and (fine) mechanics is required.

The Team

You are going to work at the Avionics & Instruments department. In this team of circa 16 technicians you work both independently and in a team, on repairs of electronic aircraft components. In addition to the repairs, this team also spends time on maintaining test and measuring instruments. To keep the knowledge and skills "Up to date", training and information sessions are organized regularly.

Key Responsibilities

- Testing, inspection and repair of electronic/mechanical aircraft parts;
- Maintenance and calibration of test and measuring instruments;
- Working within the rules that apply within aviation;
- Ensure a cost-effective completion of your work;
- Make a positive contribution to the working atmosphere and team spirit in the department.

Experience & Qualifications

- MBO 4 Aircraft technology or equivalent;
- Experience in repairing components and printed circuit boards;
- Good knowledge of English, spoken and written;
- Experience with soldering and soldering techniques;
- Good communicative qualities;
- Experience with robotics / home automation is a Pre.

What We Offer

We offer opportunities to grow within this position or other departments within Fokker such as logistics, engineering or sales. In addition, we have an attractive employment package with, among other things, a competitive salary, profit-dependent benefit and 27 vacation days and 13 ADV days.

About Fokker Services

At Fokker Services, our drive revolves around one purpose: exceed reliability expectations to keep your aircraft where they belong, in the sky. As a Global Independent Aerospace Service Provider we create tailored solutions for your maintenance of regional, commercial and military aircraft. We engineer, repair, upgrade, and deliver high-quality solutions, innovating in multiple areas to facilitate and support your competitive operations. Our services range from type certificate holder-related product support services to flight hour based component availability and repair programs, spare parts, engineering, modifications and documentation support. The unique combination of OEM (design) expertise and after-sales support services makes us an essential partner for the aerospace industry. We have a global presence, with facilities in Europe, Asia and the Americas.

Working With Us

What is the height of your ambition? Ours starts at roughly 30,000 feet and climbs from there. Few people know what it feels like to set their work in the sky. Others may have a hard time relating but your colleagues understand that when your work takes flight, so do you. Which is why our team leaders are so driven to support the development of your maximum potential. Together, your work will mix renewal with innovation, reinvention and repair to create tailored solutions that soar. Your entrepreneurial spirit will be given the space to maneuver, working with a team that is as open, transparent and engaged as you are. With Fokker Services, every action you take has a meaningful impact on a clients' success. It's this total combination, and the strength of the relationships formed through a shared dedication, that keeps hardworking talent here for 20, 30 plus years. Time enough to reach the height of your ambition, and discover what lies beyond.
