

## **Logistical Representative NH90**

Are you a seasoned Logistical Expert with a passion for providing the best service to your customer? Are you eager to join a global leader that values innovation, excellence, and a customer-centric approach? Look no further! We invite you to become a key player in our Engineering team at Fokker Services Group as a Logistical Representative NH90.

### **The Role**

As Logistical Representative NH90 you are part of the Delegated Partner Company – Netherlands (DPC). This organization takes care of all the Technical and Logistical requirements of the NH90 helicopter platform that operates for the Dutch Armed Forces. Collaborating closely with the customer your aim is to maximize the fleet availability by ensuring that all logistical issues are managed according to the demands. Your analytical prowess will enable you to assist your customer in making the most optimal decisions.

### **The Team**

The DPC-Netherlands Team is part of the Modifications and Engineering Services department. The main objective of this team is to support the customer with any and all maintenance requirements for the NH90 platform and be the liaison with international Industry partners to arrange this support in the best suitable way. As part of this Team you represents several major European aviation companies which operate in an international Joint Venture. You work closely together with the Technical Representative and you report functionally to the Variant Support Leader and hierarchical to the Manager Engineering. The Team is based at the Royal Netherlands Airforce, Air Support Base Woensdrecht.

### **Key Responsibilities**

- Optimize Fleet Availability by timely managing all logistical subjects and issues.
- Participating in various Base Maintenance, Project and Mission Teams to advise on and manage the logistical subjects.
- Manage the Customers Obsolescence subjects with the OEM.
- Organize regular National Review meetings with the OEM and the NH90 Customers.
- Manage and resolve Quality Related issues.
- Provide financial reports.

### **Experience & Qualifications**

- Bachelor (or knowledge and experience) in supply chain management or relevant, with a minimum of 5 years of experience in aeronautical logistics.
- Autonomy, leadership and experience in project management.
- Ability and confidence to work independently as a liaison within a military organization in a continuous developing program.
- Exceptional communication skills, both verbal and written, with fluency in English; Dutch proficiency is a plus.
- You have excellent social and networking skills, you are a true people person.
- A security screening procedure by the Military Intelligence and Security Agency(MIVD) is part of the employment procedure.

## **What we offer**

Joining Fokker Services Group means embracing a dynamic and entrepreneurial environment, where innovative thinking and teamwork form the foundation of our no-nonsense culture. We value your expertise and commitment and offer the following:

- A competitive salary commensurate with your knowledge and experience;
- 27 - 29 holiday days and 13 ADV leave days per year (for full-time, 40-hour positions).
- A challenging international working environment with ample opportunities for professional and personal growth;
- Autonomy in your role, fostering your development as a leader in the aviation industry.
- Company laptop and phone, granting you the tools to excel in your position;
- An insider's look into the innovative world of aviation, where your contributions make a difference;
- A supportive and fun-loving team, ready to collaborate and achieve our shared goals.

## **About Fokker Services Group**

At Fokker Services Group, our greatest purpose is to exceed reliability expectations, keeping customer aircraft where they belong - in the sky! An aftermarket integrator with design, production, maintenance, and airworthiness expertise and experience, on which commercial and defense operators around the world rely for the continued competitive operation of their fleet. Unique independent competence for comprehensive single source solutions with a global presence, with facilities in Europe, Asia and the Americas. The Fokker Services Group has a profitable revenue of Euro 250M and employs around 1000 people.

## **Our Values**

As a High Performance Organization, our core values shine through in everything we do:

### Customer Focus

We meet and exceed our customers' expectations by offering unique and personalized solutions. Creating clear expectations and building a sustainable relationship based on quality, safety and trust is what we value most.

### Innovative Thinking

Our success is based upon an innovative mindset. We identify and create new opportunities, products and customer solutions by being brave, daring to lead and making decisions. With our entrepreneurial and growth mindset, we explore and learn ways of doing things differently every single day.

### Global Excellence

We strive for quality, reliability and excellence. Together we create a high-performance culture in which digital transformation, continuous learning and improvement is key. Sharing knowledge, and working cross functionally helps us to inspire and achieve our shared goal; to exceed expectations and keep aircrafts where they belong; in the sky!

### We Care

Our people are at the heart of our organization. Only when we work together can we create an inclusive and respectful work environment in which we motivate, support and inspire each other. We make a difference by being open, honest, respectful and empathetic towards each other. Safety, quality and trust are paramount.
