

Component MRO Shop Supervisor

About Fokker Services

At Fokker Services, our drive revolves around one purpose: exceed reliability expectations to keep your aircraft where they belong, in the sky. As a Global Independent Aerospace Service Provider we create tailored solutions for your maintenance of regional, commercial and military aircraft. We engineer, repair, upgrade, and deliver high-quality solutions, innovating in multiple areas to facilitate and support your competitive operations. Our services range from type certificate holder-related product support services to flight hour based component availability and repair programs, spare parts, engineering, modifications and documentation support. The unique combination of OEM (design) expertise and after-sales support services makes us an essential partner for the aerospace industry. We have a global presence, with facilities in Europe, Asia and the Americas.

Working With Us

What is the height of your ambition? Ours starts at roughly 30,000 feet and climbs from there. Few people know what it feels like to set their work in the sky. Others may have a hard time relating but your colleagues understand that when your work takes flight, so do you. Which is why our team leaders are so driven to support the development of your maximum potential. Together, your work will mix renewal with innovation, reinvention and repair to create tailored solutions that soar. Your entrepreneurial spirit will be given the space to manoeuvre, working with a team that is as open, transparent and engaged as you are. With Fokker Services, every action you take has a meaningful impact on a clients' success. It's this total combination, and the strength of the relationships formed through a shared dedication, that keeps hardworking talent here for 20, 30 plus years. Time enough to reach the height of your ambition, and discover what lies beyond.

The Role

We are seeking a CMRO Supervisor with good leadership skills to lead a team of 6 Technicians to drive day-to-day activities in the Component Repair Shop; the main activity comprises MRO on Fokker and ATR cabin interiors.

The Supervisor ensures continuous improvement in safety, efficiency, performance, cost-effectiveness, staff growth and business development (new repair capabilities), he or she is expected to interact with all stakeholders from relevant departments including customer representatives.

The Team

CMRO might be a small team within Singapore but it has global leverage across both the Netherlands and America.

Key Responsibilities

- To manage and motivate a team of 6 Repair Technicians, including the allocation of manpower and sequencing of activities.
- To liaise with both the Fokker aircraft maintenance crew chief and the customer technical representative on the cabin interior projects.
- To assess work carried out against approved quality standards, MOE, customer requirements and ensure released component are in airworthiness condition.
- To comply with health, safety and environment (HSE) regulations as prescribed by law and the company's policies; develop the Safety culture within the workshop environment.
- To develop appropriate performance KPIs, visual management; achieve efficiency and utilization targets.
- To develop and lead necessary continuous improvement lean projects in coordination with yellow belts and Lean Manager.
- To define and implement corrective and preventive actions resulting from internal, customer or authority audits.

Experience & Qualifications

- At least 3 years of related experience within an aerospace Component MRO environment.
- Deep knowledge of Part145 standard and environment.
- Strong experience and knowledge of cabin interior MRO (galley, lavatory, panels, etc....).
- Minimum 3 years of experience in a leadership role.

What We Offer

- Competitive salary
- Dental benefits
- Medical benefits
