As Service Engineer Structures & Interiors you work to enhance a wide variety of aircraft platforms. You are in contact with customers and authorities with respect to the design, certification, testing and supporting all kinds of modifications such as ADSB out, SBAS, LPV and more. Also, as holder of the Fokker Type Certificate you support our customers with the day-to-day operation of their Fokker fleet.

Your Responsibilities

- Within the established Key Performance Indicators responding to technical questions from Fokker Services customers during and outside office hours;
- Providing on-site technical assistance;
- Analyzing technical and operational in service issues and providing solutions;
- Managing Technical Occurrences and providing Technical assistance to the Case Manager in case of Safety Board cases ;
- Providing liaison function to Operators, Vendors and Authorities ;
- Participate in repeat Modification projects with respect to "aircraft survey" and "Drawing & Engineering Bulletin compilation".

We ask:

- Bachelor or Master Degree in Engineering with background Aeronautical engineering or equivalent;
- A strong affinity with aircraft design and operations;
- Analytical and problem solving skills;
- Good communication skills, verbal and in writing, in English, Dutch is pre ;
- We ask you to live in the Netherlands, relocation is not possible;
- Enthusiastic team player;
- Knowledge of the Fokker 70/100 Structural Repair Manual and Autodesk AutoCAD and CATIA skills is a plus;

What we offer:

- A dynamic workspace in a highly skilled team;
- Possibility of establishing special capabilities within the Design Organization;
- Possibility to grow within the Fokker Services organization;
- A competitive salary matching your knowledge and experience;
- flexible hours and an option to partially work from home;
- when working fulltime (40 hours), you have 27 days of paid leave and 13 ADV paid leave days per year;
- company laptop;

- an insider's view in the world of aviation and its innovation;
- a lot of room for professional and personal growth.

About Fokker Services Group

At Fokker Services Group, our greatest purpose is to exceed reliability expectations, keeping customer aircraft where they belong - in the sky!

An aftermarket integrator with design, production, maintenance, and airworthiness expertise and experience, on which commercial and defense operators around the world rely for the continued competitive operation of their fleet. Unique independent competence for comprehensive single source solutions with a global presence, with facilities in Europe, Asia and the Americas. The Fokker Services Group has a profitable revenue of Euro 250M and employs around 1000 people.

Our Values

As a High Performance Organization, our core values shine through in everything we do:

Customer Focus

We meet and exceed our customers' expectations by offering unique and personalized solutions. Creating clear expectations and building a sustainable relationship based on quality, safety and trust is what we value most.

Innovative Thinking

Our success is based upon an innovative mindset. We identify and create new opportunities, products and customer solutions by being brave, daring to lead and making decisions. With our entrepreneurial and growth mindset, we explore and learn ways of doing things differently every single day.

Global Excellence

We strive for quality, reliability and excellence. Together we create a high-performance culture in which digital transformation, continuous learning and improvement is key. Sharing knowledge, and working cross functionally helps us to inspire and achieve our shared goal; to exceed expectations and keep aircrafts where they belong; in the sky!

We Care

Our people are at the heart of our organization. Only when we work together can we create an inclusive and respectful work environment in which we motivate, support and inspire each other. We make a difference by being open, honest, respectful and empathetic towards each other. Safety, quality and trust are paramount.
