

Engineering

For Innovative Engineering Services & Solutions

Within Fokker Services Group's engineering and design capabilities are recognized by the EASA through a Design Organization Approval (DOA). This recognition allows us to perform the entire design and development process in house, including certification and flight testing.

Engineering Expertise: Based on our heritage, our engineering and certification knowledge is extensive and considered second-to-none. Our Engineering Team provides a full variety of in-house performed engineering, design and certification applied not only to 'green' completions but also to minor / major modifications to the aircraft's avionics, systems and structures.

Multi-disciplinary / Skills: Our dedicated Engineering team covers Engineering disciplines and skills in the field of In-Flight Entertainment (IFE), wireless LAN and SatCom systems, Mechanical Systems & Structures, Stress and Airworthiness Analysis. All essential for evidencing that all latest regulations standards are complied with ultimately leading to final Certification.

Engineering Services

Design and Engineering of VIP interiors, systems and installations • Certification of completions, modifications & systems to obtain STCs • Redesigns related to obsolescence issues, upgrades and refurbishments • On-site Technical Support to enhance aircraft operations • Maintenance requirement analysis and recommendations • Supplements of aircraft Technical Documentation & Manuals • Engineering technical assistance • Weight saving and noise reduction studies and incorporation • Structural repair recommendations.

The Services We Provide

The Fokker Services Group facility at Woensdrecht Airport (EHWO) specializes in executive aircraft conversions and VIP completions including Boeing BBJ and Airbus ACJ aircraft, MRO support to commercial aircraft operators including aircraft (re)delivery to and from leasing companies. We have extensive capabilities for heavy maintenance, modifications, painting, off-site support, damage assessment, CAMO support and turnkey solutions for severe repairs and/or ferry flight preparations. Our customers include aircraft manufacturers, leasing companies, aircraft owners, aircraft operators and other aviation service providers.

Aircraft Types

Airbus: A320 and A330 family (including Neo)
Boeing: B737 series
ATR: 42/72 series
Fokker: All types
Gulfstream: G550
NH-90

Certification Numbers

Part 21 G: NL.21G.2358
Part 21 J: EASA.21J.667
Part 145: NL.145.1358
Part M CAMO: NL.MG.8350
AS/EN9100: 130880
FAR: 4FKY163D
AS9100C: 130880

History

With a heritage of more than 100 years building aircraft to the highest standards our experience is unparalleled. Our Woensdrecht facility has existed since 1955.

Independent Leader in Maintenance, Modifications & Conversions

Your Fleet, Our Solutions. Together

About Fokker Services Group

Fokker Services Group is an independent aerospace service company with a global reach. Providing comprehensive solutions from its five facilities in Europe, Asia and the Americas, Fokker Services Group is a key partner for regional, narrow-body and wide-body platforms in the Commercial, VIP, Cargo and Defense markets. The organization offers a unique set of capabilities, products and services: 'Modifications & Engineering Services' for the latest technical solutions; 'Component Services' such as nose-to-tail programs, exchange services, and component repairs; 'Material Services' such as parts manufacturing, spares deliveries, and tear-downs; 'Airframe Services' for aircraft MRO including lease transitions and painting; and 'Aircraft Completion & Conversion Services' for Executive, VVIP and Special Mission aircraft upgrades.
