

NDT Engineer (Level 2)

Are you an experienced NDT Engineer with a passion for ensuring the integrity and safety of products? We are currently seeking a highly skilled individual to join our team as an NDT Engineer Level 2. In this role, you will play a vital part in enhancing our quality assurance processes and contributing to the overall excellence of our products.

Key Responsibilities:

- Perform a diverse range of non-destructive tests, including ultrasonic, radiographic, magnetic particle, and dye penetrant testing.
- Interpret and assess test results to identify defects, anomalies, or irregularities in materials and components.
- Ensure strict adherence to industry standards, codes, and safety regulations.
- Collaborate with cross-functional teams to address and resolve quality and safety-related issues.
- Conduct on-site or shop inspections and tests to ensure the highest standards of quality.
- Maintain accurate records of testing procedures, results, and equipment calibration.
- Actively participate in the development and implementation of NDT procedures and protocols.

Qualifications:

- Certification as an NDT Level 2 Engineer following industry standards (e.g., ASNT, PCN, EN ISO 9712).
- Bachelor's degree in Engineering or a related field (preferred).
- Proven experience in non-destructive testing within an industrial setting.
- In-depth knowledge of NDT methods and techniques.
- Strong analytical and problem-solving skills.
- Excellent attention to detail and accuracy.
- Effective communication skills, both written and verbal.
- Ability to work independently and collaboratively within a team.

If you are a dedicated NDT professional seeking a challenging opportunity to contribute to the quality and safety of our products, we invite you to apply. Join us in maintaining the highest standards of excellence in non-destructive testing.

About Fokker Services Group

At Fokker Services Group, our greatest purpose is to exceed reliability expectations, keeping customer aircraft where they belong - in the sky!

An aftermarket integrator with design, production, maintenance, and airworthiness expertise and experience, on which commercial and defense operators around the world rely for the continued competitive operation of their fleet. Unique independent competence for comprehensive single source solutions with a global presence, with facilities in Europe, Asia, and the Americas. The Fokker Services Group has a profitable revenue of Euro 250M and employs around 1000 people,

Our Values

As a High-Performance Organization, our core values shine through in everything we do:

Customer Focus

We meet and exceed our customers' expectations by offering unique and personalized solutions. Creating clear expectations and building a sustainable relationship based on quality, safety and trust is what we value most.

Innovative Thinking

Our success is based upon an innovative mindset. We identify and create new opportunities, products, and customer solutions by being brave, daring to lead and making decisions. With our entrepreneurial and growth mindset, we explore and learn ways of doing things differently every single day.

Global Excellence

We strive for quality, reliability, and excellence. Together we create a high-performance culture in which digital transformation, continuous learning and improvement is key. Sharing knowledge and working cross functionally helps us to inspire and achieve our shared goal; to exceed expectations and keep aircrafts where they belong; in the sky!

We Care

Our people are at the heart of our organization. Only when we work together can we create an inclusive and respectful work environment in which we motivate, support, and inspire each other. We make a difference by being open, honest, respectful, and empathetic towards each other. Safety, quality, and trust are paramount.
